

## BWB Technologies Ltd Environmental Policy

The Environmental Policy of BWB Technologies Ltd, hereafter the Company, is to ensure so far as it is reasonably practicable that its operations will be carried out with a commitment to protecting and enhancing the environment.

We believe that businesses are responsible for achieving good environmental practices and operating in a sustainable manner. We are therefore committed to reducing our environmental impact and continually improving our environmental performance and an integral and fundamental part of our business strategy and operating methods. As a result the Company will ensure that it makes available the funds and resources required to achieve this.

It is our policy to encourage our customers, suppliers, employees and other business associates to do the same; thus ensuring that we deliver on our duty of care for future generations.

### 1. **Our aims are to:**

- 1.1 Continuously improve our environmental performance particularly with regards to our recycling and re-use of paper;
- 1.2 Where possible use recycled or ecologically friendly paper;
- 1.3 Use 'waste' paper for notepads unless confidentiality may be compromised;
- 1.4 Reduce our consumption of resources and improve the efficiency of those resources by printing double sided where practicable
- 1.5 Manage waste generated from our business operations according to the principles of reduction, re-use and recycling through local waste management schemes;
- 1.6 Recycle all paper products, ink or toner cartridges, bottles, cans and cardboard;
- 1.7 Where possible, prevent excess printing and ensure the 'paperless office' is the norm rather than the exception;
- 1.8 Comply as a minimum with all relevant environmental legislation as well as other environmental requirements;
- 1.9 Utilise LED lighting throughout the office and factory spaces;
- 1.10 Use energy suppliers providing only 'green' energy or carbon neutral energy;
- 1.11 Ensure that, where possible, all packaging materials for goods shipments are composed of recycled content or readily recyclable;
- 1.12 Consider at the design phase of new products or model enhancements the environmental impact of the materials in construction, ability to recycle and life cycle of the products;
- 1.13 In conjunction with a suitable service provider, plant trees for every instrument

sold;

- 1.14 And in conjunction with a suitable service provider, commit to planting 1000 trees for every company employee by 2025.

This Environmental Policy Statement will be regularly reviewed and updated as necessary. The management team endorses these policy statements and is fully committed to their implementation.
